## ACCESSORIES

### **Electronic version:**

includes **membrane switches**, **Electronic thermostat** (to adjust the temperature), **Time controlled dispenser** (to automatically adjust the quantity of coffee desired short/long), **Energy Saving System** (puts the machine in stand-by after a preset non-use time). **Credit Coffee System**: allows electronic control of the coffees the machine has brewed and stops when the preset dispensing number is reached.

**Frother**: is mounted on the steam nozzle to get a perfect cappuccino.
