

VAVA 4K laser projector

Cinematic Brilliance in Your Home

- 150" Big Screen Home Theater
- 0.233:1 Ultra Short Throw Rate
- ALPD 3.0 Technology
- Harman Kardon: 60W
- > 25000 Hours Long Life Time
- Smart Android 7.1 System
- Wide Color Gamut
- Diffused Light for Eye Protection

Luminary Light Source

The VAVA 4K projector uses an incredible 6000 lumens to produce a bright image even with ambient lighting; you no longer need a pitch black room to get a good image

Elaborate, Vivid Details

Adopts a three-segment color wheel to display the most accurate colors for enhanced purity and brightness, whilst a 3000:1 vivid contrast ensures a crisp and clear quality

Easy Installation

The ultra short throw projection eliminates the need for additional mounting hardware and professional installations. Not only is the installation quick and painless, but your viewing experience will also no longer be interrupted by moving objects

Complete Connectivity

Every connection scenario is covered with 9 ports for various peripherals including a HDD player, USB hard drive, gaming console, computer, TV set-top box, speaker, and so on
