Feel The Thrill Of The Curve

BenQ Curved Gaming Monitor XR3501

2000R Ultra Curvature for a Total Immersive Feeling
144Hz Refresh Rate for Smooth Fast Motions

XR3501

Designed for a more immersive racing experience, the XR3501 straps gamers in their seats with its 2000R curvature and 144Hz refresh rate. The ultimate high-performance 35 inch curved gaming monitor will empower you to Feel The Thrill Of The Curve.

XR CURVED GAMING MONITOR

Feel The Thrill Of The Curve

2000R Ultra Curve + 144Hz Refresh Rate

Designed for a more immersive racing experience, the XR3501 straps gamers in their seats with its 2000R curvature and 144Hz refresh rate. The ultimate high-performance 35 inch curved gaming monitor will empower you to Feel The Thrill Of The Curve.

2000R Ultra Curve
All-Covered Field Of Vision

The smooth, curved shape of the XR3501 display is designed to completely consume your field of vision. The action on the screen fills your periphery, eliminates any distractions and creates a true real-world gaming experience.

21:9 Ultra Wide & High Resolution
See All That You Can See

The 35'' XR3501 delivers a stunning picture with a 21:9 aspect ratio and offers a crisp 2560 × 1080 resolution, so you can see what's coming on the track-from the decals on your opponents' cars to the roadside grass and leaves on the trees you speed by.

144Hz Refresh Rate
Smooth Operator

With the High 144Hz refresh rate, you get a consistently flawless view of all the details within the fast-moving action. Fluid transitions are ensured for the smoothest gameplay at all times.

20-Level Color Vibrance
Optimize Gaming Precision With 20-Level Color Vibrance Setting

The XR3501 gives you the flexibility you need to get the color performance you seek. There are 20 levels of Color Vibrance settings built into the monitor to meet gamers' specific viewing requirements and preferences for different types of gameplay.

Black eQualizer
Let There Be Light -- Black eQualizer For Total Visibility

Do the other cars seem to vanish in the darkness of a tunnel? The XR3501 comes with built-in Black eQualizer color engine technology to brighten dark scenes without over-exposing the bright areas.
3 Exclusive Game Modes
Top Gamers' Secret Weapons

Special gaming presets used by professional players are included with the XR3501 so you can see what the pros see. Each mode is fine-tuned so you can leverage these exclusive presets used by pro gamers to your own advantage.

- Gamer 1: Car Racing Game
- Gamer 2: First Person Shooting Game (1)
- Gamer 3: First Person Shooting Game (2)
