

Harness the power of your computer to create the ultimate tone.

Shape your sound with the perfect tone -- using your Mac or PC! GuitarLink Plus combines Alesis' GuitarLink guitar-to-USB cable with Native Instruments Guitar Rig LE software to empower every guitarist with the processing capability of his or her computer.

GUITARLINK, THE USB GUITAR CABLE

Whether you're recording, performing or practicing, GuitarLink Plus enables you to easily connect guitars, basses, and other instruments directly to your computer. GuitarLink Plus' internal, analog-to-digital conversion injects studio-quality, 16-bit, 44.1 kHz digital audio straight to a computer without the need to install drivers.

GUITAR RIG SOFTWARE

Guitar Rig LE software shapes guitar sound with emulations of classic amplifiers and effects pedals. You can record your performances right in Guitar Rig and export it to your favorite recording software, or connect it to your amp or PA system for performance.

Step into the world of computer processing and elevate your tone with GuitarLink Plus.
