<b>50-Word Product Description</b>	The Hydro Series H110i GT is an extreme performance, all-in-one liquid CPU cooler for cases with 280mm radiator mounts. The 280mm radiator and dual SP140L PWM fans provide the excellent heat dissipation you need for highly overclocked CPUs. It's Corsair Link compatible, so you can customize cooling performance, monitor system temperature, and change the color of the RGB LED lighting.

# Hydro Series™ H110i GT High Performance 280mm Liquid CPU Cooler

## 100-Word Product Description

Hydro Series H110i GT is an all-in-one liquid CPU cooler with a large 280mm radiator and dual SP140L PWM fans for performance that's far superior to stock CPU cooling fans. Liquid cooling simply works better than air cooling, and the self-contained design of the H110i GT makes it easy for you to protect your valuable CPU.

For efficient cooling, bigger is better – it's simple physics. If your PC's case can fit a 280mm radiator, Hydro Series H110i GT will give you better performance. It's Corsair Link compatible, so you can customize cooling performance, monitor system temperature, and change the color of the RGB LED lighting.

## Product Features

- **Large 280mm radiator:** more cooling capacity for cases which have 280mm radiator mounts
- **Improved coldplate and pump design:** our latest generation is better than ever at rapidly drawing heat away from your CPU.
- **Dual SP140L PWM fans:** customizable performance and custom-molded blades for high static pressure with low turbulence.
- **Modular, tool-free mounting bracket:** installation is simple and straightforward.
- **Built-in Corsair Link:** adjust fan speed, monitor CPU and coolant temperature, and customize LED lighting directly from your desktop
