Features of DELL VOSTRO 3510

Please Note: The features mentioned below may vary for the model across the region. Please refer product specifications above for the processor, storage, graphics, etc in the specific model.

Experience uninterrupted productivity

Amplified display: A brilliant FHD panel (optionally up to 220 nits) offers more brightness and vivid color for an enhanced front-of-screen experience, and a 2-sided narrow border emphasizes your screen while helping minimize distractions.

ExpressCharge™: Take your battery charge level from 0% up to 80% within an hour[1] so you're not tied down to an outlet while working on the go.

Dell Mobile Connect: Experience seamless wireless integration between your laptop and Android or iOS smartphone. Dell Mobile Connect allows you to access multiple devices and applications without dividing your attention.[2]

Powerful processing: Tackle your workday with the power of up to 10th Gen Intel® Core™ processors.

Files at your fingertips: Store all your important documents for easy access with up to 2TB HDD and 1TB class 40 SSD.

Design you can depend on

Travel light: Starting at 1.84kg and under 20mm thin, the new and improved Vostro 15 3000 is ready to go whenever you are.

Ports galore: Your laptop is equipped with an array of ports and an SD card reader to keep you connected to what matters most.

Light it up: An optional backlit keyboard means that you can keep working no matter what the lighting conditions are.

Sophisticated colors: An array of vivid colors makes the Vostro 15 3000 visually outstanding for a professional and stylish look. Color options vary by region.

Numeric keypad: Get work done faster with a 10-key numeric pad and a calculator key that populates a calculator with just one touch.

Serious security

TPM 2.0: The Trusted Platform Module 2.0 is a commercial-grade security chip installed on the motherboard that creates and stores passwords and encryption keys. It verifies that the computer has not been tampered with before booting up and protects your data against external software attacks.

Simple & secure: The optional fingerprint reader with Windows Hello allows you to easily and securely log in with just one touch.
