1 Year DELL Warranty

## Key Features of DELL XPS 13 2-in-1 Convertible Series

\*Product specification within the series may vary based on model and region. Please refer product specification of the model above.

## Beauty without borders.

The world's smallest<sup>1</sup> 13-inch 2-in-1 with InfinityEdge display for virtually borderless viewing and gorgeous detail with the latest 8th gen Intel® processors and optional UltraSharp QHD+.

**Available with Windows 10 Home** - for a smooth, versatile PC experience

Real wonder.

The revolutionary InfinityEdge display is now available for the first time on a 2-in-1, providing a virtually borderless edge-to-edge view, all in the smallest 13-inch 2-in-1 on the planet. Enjoy stunning views with the UltraSharp QHD+ resolution seeing every detail with 5.7 million pixels. Colors come to life with a color gamut of 72% and 400-n brightness for a great view even outside.

Style in a class of its own.

**Thin. Light. Incredibly mobile:** The XPS 13 2-in-1<sup>1</sup> is the smallest 13-inch with an expansive edge-to-edge display, making it a beautifully mobile, easy-to-pack powerhouse that lets you work and play anywhere.

**Built to be seen, not heard:** The sleek, silent design enables a thinner form factor (8-13.7mm) and limits excess sound and heat from your machine, so you can enjoy quiet use in meetings or coffeehouses. They'll notice your sharp style – not your noise.

**Elegant at every angle:** The XPS 13 2-in-1 is built with a premium 360-degree hinge for four, flexible positions – tablet, tent, laptop and stand mode – so you can watch, work or surf the way you want.

Long-lasting performance

**Stay powered longer:** Depending on how you use your 2-in-1, your battery life will vary. We benchmark our battery life 2 different ways with industry standard MobileMark 2014, as well as some of the most common laptop usages, like streaming video. When you are using productivity applications, like Word or Excel, experience up to 8 hours and 35 minutes of runtime or enjoy up to 7 hours and 12 minutes of battery life when streaming Netflix content.

**Back-up power:** The optional Dell Hybrid Adapter + Power Bank will give you extra runtime with (11) additional hours of productivity for your XPS 13 2-in-1.

Enjoy a better view.

**Stunning view and clarity:** Fall in love with the stunning UltraSharp QHD+ resolution (3200x1800) for truly astonishing detail with 5.7 million pixels (276 ppi). Enjoy 2.5 million more pixels than FHD, so images and text are incredibly crisp. Say goodbye to blurry lines, and get pinpoint accuracy when editing images. Zoom in for advanced detail or see more content on your screen.

**Easy to share:** See content clearly from nearly every angle with the IGZO IPS panel, providing a wide viewing angle of up to 170°. While the touch display makes it simple to tap, swipe and pinch your way around the screen.

**Brighten your day:** 400-nit brightness is brighter than a typical laptop display coating, so you get a great view, even outside. An anti-reflective coating panel improves outdoor usage.

**Gorgeous colors:** See the brightest brights and the darkest darks with a color gamut of 72% and a contrast ratio of 1000:1.

Stunning speed.

**Amazing performance and responsiveness:** Up to 8th Gen Intel® Core™ i5 and i7 processors provide improved performance at lower power for amazing system responsiveness.

**Dynamic power mode:** Engineered by Dell, Dynamic Power Mode delivers extra processing power in short bursts when you need it, squeezing every drop of power out of the CPU, while intelligently monitoring and managing system temperatures.

**Ready to go in a flash:** The XPS 13 2-in-1 boots and resumes in seconds, thanks to solid-state drives and Intel® Rapid Start Technology. Plus, new PCIe options up to 1TB provide 1.3x faster performance.

**Work or play all day:** You'll experience long battery life when you are on the go—up to 14 hours, 16 minutes<sup>4</sup> on a Full HD model when using productivity applications like Word or Excel.

Premium materials. Maximum durability.

Designed tough

The XPS 13 2-in-1 is built with machined aluminum, carbon fiber, bonded Corning® Gorilla® Glass 4, and steel hinges wrapped in machined aluminum for stronger construction. A display that is up to 10 times more scratch resistant than soda lime glass and a palm rest that is cooler to the touch give it a top-shelf feel.

Pinch, zoom and click with precision

The precision touch pad prevents jumping and floating cursors, while Accidental Activation Prevention puts a stop to unintentional clicks when your palm hits the touch pad. A standard backlit keyboard illuminates your keys so you can stay productive in low-light or no-light rooms.

Latest connectivity

The XPS 13 2-in-1 includes 2 USB Type C ports for smart charging and display functionality and one-cable docking option that won't take up valuable desk space. Thunderbolt 3™ is enabled for one port for 8x faster downloads. A USB-C to USB-A adapter comes included.

Interact intuitively.

**Quickest ways to set ideas in motion:** Turn thoughts into action with the magic of Windows Ink. Naturally capture notes at the speed of thought – with no need to be logged in. And powerfully pair inking with Office to effortlessly make edits, create content and drive ideas forward. The optional Dell Active Pen\*, with thousands of levels of pressure sensitivity at pro-level precision (2048), allows for a more natural handwriting experience, mimicking the standard pen experience up to the highest possible level. Quick response, optimized pen tip materials and palm rejection also contribute to making the pen feel that comes as close to writing on standard paper when you are taking notes or drawing.

\*Pen sold separately

**Microsoft Hello:** Enjoy a password-free sign-in with either the fingerprint reader or innovative infrared camera, giving you the fastest way to unlock your Windows device. Using your touch or your face, it recognizes you apart from all others. It waves you in with a friendly hello and even works on apps and Microsoft Edge websites.

More environmentally responsible than ever.

**Power efficient:** The XPS 13 2-in-1 is ENERGY STAR® qualified.

**Smarter materials:** Free of materials like cadmium, mercury and some phthalates, it's also EPEAT® Gold registered<sup>5</sup> and BFR/PVC-free<sup>6</sup>.

**Recycle-friendly:** Over 90% of the laptop (by weight) can be easily recycled or reused, and the bamboo packaging trays are 100% recyclable.

**Sustainably packaged:** The packaging trays are made of 25% ocean plastics (collected on beaches, waterways and other coastal areas) and 75% other recycled plastics for a sustainable solution. [Learn more about the program here.](#)
