1 Year Lenovo Warranty

Please Note: The features mentioned below may vary for the model across the region. Please refer Product specifications above for the Processor, Storage, Graphics, etc in the specific model.

More for less

The IdeaPad 3 is priced as an everyday-use laptop—but engineered as something much more. 10th Gen Intel® Core™ processing—as well as powerful memory and storage options—means this PC delivers beyond expectations. Bonus: The numeric keypad will speed up your productivity, whether you're working on your personal budget or preparing a spreadsheet.

Great for entertainment

Narrow bezels on two sides make the most of the 15.6" IdeaPad 3's FHD display—and give the laptop itself a clean, contemporary look. Dual speakers with Dolby Audio™ optimize sound so you'll love what you hear as well as what you see.

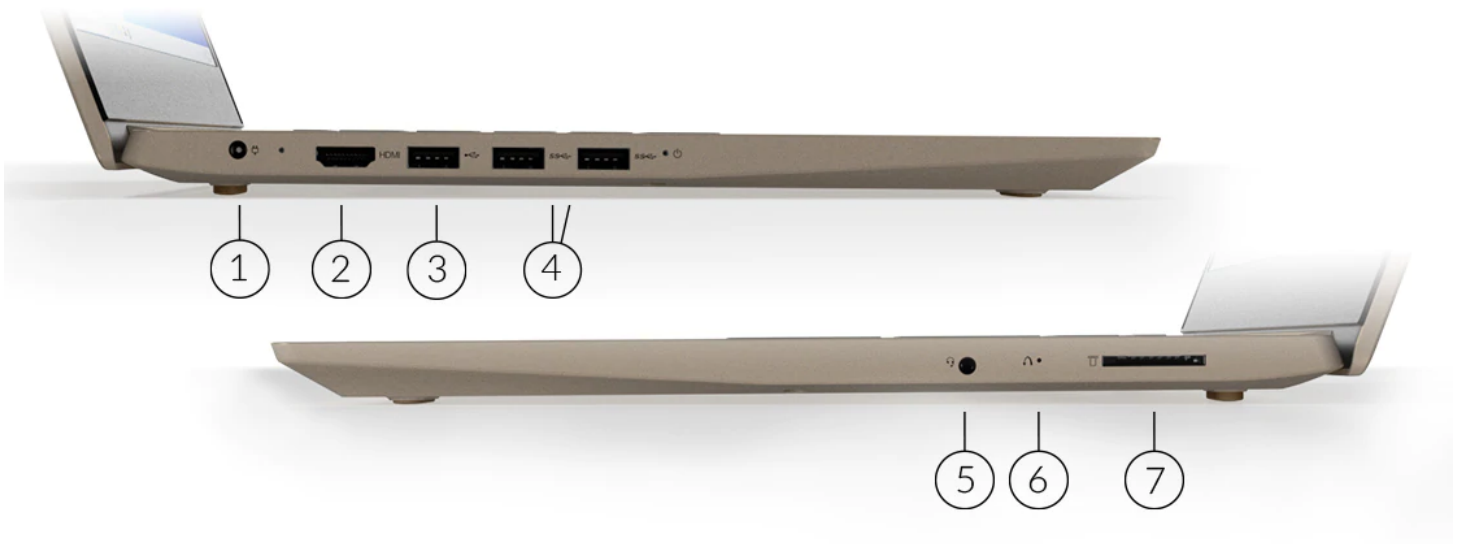

Privacy at your fingertips

The IdeaPad 3 laptop is packed with advanced technology, but sometimes the straightforward approach works best. That's why we designed the webcam with a physical shutter. When you're done with your video chat, simply close the shutter and make your webcam hacker-proof.
