

DMInteract[®]

Grow Your Meeting Room
Experience: Elevate Efficiency,
Inspire Collaboration!

PRODUCT OVERVIEW

Elevate your meeting experience with DMInteract's Next Generation Room Manager. This sleek and user-friendly device offers real-time monitoring, error-free scheduling, and a touch-screen interface that keeps your meetings on track. With a quad-core CPU, customizable LED lighting, and integrated camera, it's ideal for various applications, from conference rooms to healthcare facilities. Stay connected with Wi-Fi, Ethernet, and Bluetooth support and customize your workspace with third-party software compatibility. DMInteract's Room Manager is the key to smarter, more efficient meetings.

Top 10 Outstanding Features of DMInteract's Next Generation Room Manager

Real-Time Monitoring:

Stay on top of your meetings with the Room Manager's real-time monitoring, ensuring a seamless scheduling experience.

Error-Free Booking:

Say goodbye to double-booked meeting rooms – this device captures necessary information and prevents scheduling conflicts.

Elegant Design:

The sleek and stylish design complements any environment, making it both functional and aesthetically pleasing.

LED Lighting Customization:

Personalize the atmosphere with customizable LED lights, creating a unique and inviting ambiance.

High-Quality Display:

Enjoy crystal-clear visuals with the A+ screen, making information readily available at a glance.

Space-Saving Wall Mount:

Free up valuable floor space with the convenient wall-mounted design, maintaining a clutter-free workspace.

Power Over Ethernet (PoE):

With PoE support, there's no need for additional power supplies, simplifying installation and operation.

Responsive Touchscreen:

The 10-point capacitive touch interface offers multi-gesture support for a user-friendly and efficient experience.

Versatile Applications:

From conference rooms to healthcare facilities and entertainment tablets, it adapts to various settings and purposes.

Connectivity and Compatibility:

Seamlessly stay connected with Ethernet, Wi-Fi, and Bluetooth support. Additionally, its compatibility with third-party software enhances productivity and customization options.
