-  Get support anywhere, anytime
-  Onsite next business day hardware repair

## Technical Specification

**Product:** Dell Vostro 3520

**Product type:** Notebook

**Form factor:** Clamshell

**Processor family:** 12th generation Intel Core i5

**Processor model:** i5-1235U

**Processor frequency:** 3.30 / 4.40 GHz (12 MB Cache, 10 Cores)

**Display diagonal:** 39.6 cm (15.6")

**HD type:** Full HD

**Display resolution:** 1920 x 1080 pixels

**Display:** Anti-Glare, Non-touch

**Internal memory:** 8 GB 2666 MHz (1 x 8 GB)

**Internal memory type:** DDR4-SDRAM

**Total storage capacity:** 512 GB M.2 PCIe NVMe

**Storage media:** SSD

**On-board graphics card model:** Intel UHD Graphics

**Operating system installed:** Windows 11 Pro

**Product colour:** Carbon Black

**Weight:** 1.66 kg

## Ports & Slots

- 1. SD card reader
- 2. USB 2.0
- 3. RJ-45
- 4. Headset jack
- 5. Wedge shaped lock slot
- 6. Power jack
- 7. HDMI 1.4 (Maximum resolution supported over HDMI is 1920x1080 @60Hz. No 4K/2K output)
- 8. USB 3.2 Gen 1 Type-A

## Dimensions & Weight

- 1. Height: 16.96 mm - 22.47 mm
- 2. Width: 358.5 mm
- 3. Depth: 235.56 mm
- 4. Starting Weight: 1.66 kg

## Features

## Performance you need

Everyday tasks are quickly handled with ease using 12th Gen Intel Core Processors. Enjoy the smooth the performance of SSD, or get the best of both worlds when you opt for dual storage: the smoothness of SSD combined with the increased capacity of HDD. And with a 41 Whr battery, plus up to an 80% charge in one hour using ExpressCharge, you know you can rely on your device to power through the day.

### **Work with speed and comfort**

Focus on the work at hand with a 3-sided narrow border. The large touchpad and keycaps, along with a lift hinge for more ergonomic wrist angles and increased airflow, all make for more relaxed use. An array of ports and slots means you can get connected to what you need and a spill-resistant keyboard means less stress if an accident happens. Plus, this TÜV Rheinland certified\* laptop with Dell ComfortView software technology helps reduce harmful blue light emissions to optimize eye comfort over extended screen time.

### **Stay protected**

The Trusted Platform Module 2.0 is a commercial-grade security chip installed on the motherboard that creates and stores passwords and encryption keys. It verifies that the computer has not been tampered with before booting up and protects your data against external software attacks. The optional fingerprint reader with Windows Hello allows you to easily and securely log in with just one touch.

**Windows 11 Pro - designed for hybrid work.** The most productive and secure version of Windows yet—but simple for IT.
