UD46E-A UD55E-A

Make your videowall imagery wall-to-wall

UDE-A Series 46"/55" ultra-thin bezel commercial LED LCD displays

The slimmer the bezel, the more impactful the videowall. It's an advantage that's easy to recognize with Samsung's UDE-A Series displays. Featuring an amazingly thin 3.5mm bezel-to-bezel width, they enable you to create stunning videowalls that are virtually seamless. Direct-lit LED technology delivers a vivid, Full HD picture, while reducing power consumption and heat output. The displays are ideal for any setting demanding a videowall, be it a control room, transportation hub, broadcast studio or shopping center. Ready to engage audiences? Give them more image and less bezel.

Key features

Daisy Chain and UHD resolution

Create videowalls with easy daisy chain connectivity. DisplayPort 1.2 Loop Out enables UHD resolution. Up to 5x5 configuration.

Ultra-narrow 3.5mm bezels

Featuring an industry-leading ultra-narrow bezel-to-bezel width of just 3.5mm, the UDE-A Series displays help you create amazing videowalls that simply cannot be ignored.

Advanced color calibration

The UDE-A Series displays are meticulously factory tuned for brightness, color temperature and gamma. They deliver optimal uniformity and impressive images right out of the box.

Advanced color management

Fine-tune images through Samsung's Advanced Color Management Solution. A user-friendly interface makes precision color adjustments simple.

Direct-lit LED

Direct-lit LED technology allows the UDE-A Series displays to achieve deeper blacks and a higher contrast ratio of up to 4000:1. It also reduces power consumption and heat output.

Portrait or landscape mode

The UDE-A Series offers the ability to deliver your messages either vertically or horizontally, for greater flexibility in videowall configuration.

Reliable 24/7 continuous operation

With innovative cooling technologies, Samsung UDE-A Series commercial displays are designed from the chassis up to deliver the highest quality images with exceptional reliability, even during 24/7 continuous operation.
