

## AM06 10 inch Desk Fan Features

### Air Multiplier™ technology

Dyson fans use Air Multiplier™ technology to create a powerful stream of uninterrupted airflow.

[Read more](#)

### Sound 75% quieter

Streamlined air channels for reduced airflow turbulence make the AM06 75% quieter than AM01.

[Read more](#)

### 30% less power consumed

Engineered to create powerful airflow using less energy than AM01.

### Sleep timer

Fan can be programmed to turn off after preset intervals ranging from 15 minutes to 9 hours.

### Remote control

With 10 precise airflow settings, sleep timer, on/off and oscillation control. Curved and magnetized to store neatly on the machine.

### Oscillation control

Airflow can be directed around a room – one touch for smooth oscillation.

### Easy tilt

Pivots on its own center of gravity.

### Easy to clean

No awkward safety grilles or blades.

### Safe

No fast-spinning blades.
