

DM1500A2U3 High Speed Portable Document Scanner with 15MP Camera & A2 Size Scanning  
& 180 languages OCR Support USB3.0 High Speed

### **Low carbon office scanning solutions**

High speed portable document scanner is well-suited for enterprises and personal scanning use

Fast scan: one second finish scanning

Portable: Folding designs and ultra-light weight.

Multiple scanning size: A6/A5/A4/A3/A2

HD resolution: 2 mega, 3 mega, 5 mega, 8 mega, 10 mega, 15Mega

Powerful software function: image processing, OCR, document management and etc.

**Product Feature:**

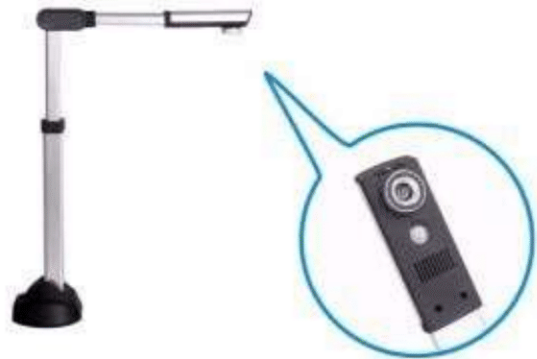

**15.0 mega pixel, A2 large format, 1 second scanning**

**1W high power 360 degree wide angle lens LED supplement light**

Built-in a LED supplement light with 1W high power 360 degree wide angle lens, can adjust brightness levels by touch switch to meet the needs of shooting in weak light environments.

15.0 mega pixel, A2 large format, 1 second scanning

1W high power 360 degree wide angle lens LED supplement light

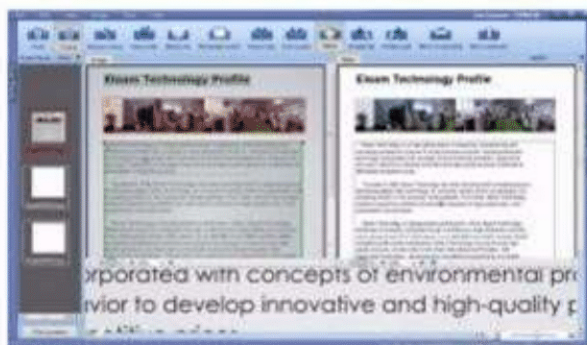

Built-in a LED supplement light with 1W high power 360 degree wide angle lens, can adjust brightness levels by touch switch to meet the needs of shooting in weak light environments.

Manual-focus, focus precisely, clearer image

**Professional OCR software, Can recognize more than 180 languages**

Advanced OCR technology. Can recognize characters, tables, symbols; supported more than 180 kinds of languages, accuracy rate up to 98%, after OCR, directly save as word files.

Manual-focus, focus precisely, clearer image

Professional OCR software, Can recognize more than 180 languages

Versatile scan bills, invoices, files, documents, 3D objects and so on

## Innovative design

Scaling, rotating, folding and upright shooting.

Versatile scan bills, invoices, files,  
documents, 3D objects and so on

## Innovative design

Scaling, rotating, folding and upright shooting.

## Product Function:

### All-Round scan

Being able to scan documents, data, bills, certificates, books, 3D real objects etc.

### Fastest scanning

One second to finish scanning with just one-clicking.

### Timing shooting, fast copying

Automatically scan after setting the shooting interval time, dramatically time-saving for scanning larger volumes of files and documents.

### Fastest scanning

One second to finish scanning with just one-clicking.

### All-Round scan

Being able to scan documents, data, bills, certificates, books, 3D real objects etc.

### Timing shooting, fast copying

Automatically scan after setting the shooting interval time, dramatically time-saving for scanning larger volumes of files and documents.

### Video recording

It can record the progress of any operation or demo for real time display applied in lab operation steps, product training and other demonstration.

### Image edit processing

The software owns strong image edit functions: image cutting, rotate, characters adding, adjust saturation, Contrast Ratio and binaryzation.

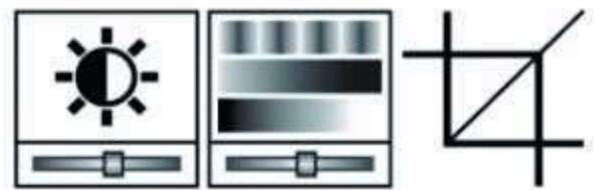

### The remarkable recognition technology

Leading OCR technology. Recognize characters, tables, symbols; supported 180 languages and up to 98% of recognize rate, directly save as Word/ Excel/ TXT/ files after OCR.

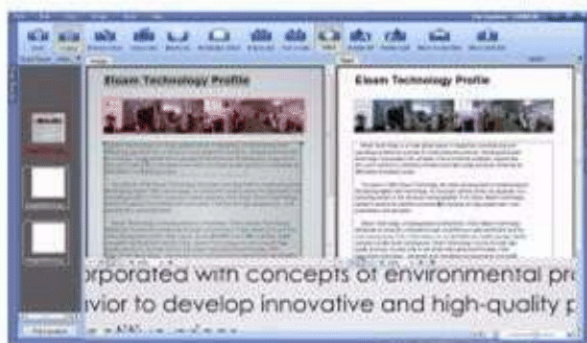

### Video recording

It can record the progress of any operation or demo for real time display applied in lab operation steps, product training and other demonstration.

### Image edit processing

The software owns strong image edit functions: image cutting, rotate, characters adding, adjust saturation, Contrast Ratio and binaryzation.

### The remarkable recognition technology

Eloam owns a leading OCR technology. Recognize characters, tables, symbols; supported 180 languages and up to 98% of recognize rate, directly save as Word/ Excel/ TXT/ files after OCR.

### PDF conversion

Scanned Images could easily convert to PDF files which can be checked on different equipments.

### Print, fax, email, Office integration

Images directly print by connecting to printer, send web fax and emails, achieve office all-in-one.

### PDF conversion

Scanned Images could easily convert to PDF files which can be checked on different equipments.

### Print, fax, email, Office integration

Images directly print by connecting to printer, send web fax and emails, achieve office all-in-one.

Product Specification:

Image sensor	15 Mega Pixels
Resolution	4416 * 3312
Scan size	A2\A3
Speed	1s
Image color	24 Bit
Sensor	HD CMOS, No driver
LED light	Natural+ LED Supplement light
Focus	Fixed Focus
Document format	PDF/WORD/TXT
Image format	JPG/TIF/PDF/BMP/TGA/PCX/PNG/RAS
Video format	AVI/WMV
Interface	USB3.0
OCR	More than 180 kinds of languages
Limited Warranty	12 Months
System Requirements (minimum)	Windows XP, Vista, Win7, Win8, Win10
Image Processing	Brightness, Contrast, Sharpness, Saturation, Gamma, Rotation, Mirroring, etc
Package Contents	Document scanner, CD-ROM, Presentation Pad, USB-cable, Users Manual
Certificate	CE, RoHs, FCC
<b>Package details</b>	
Gift box size	176×156×410 mm
Carton size	645×370×430 mm
Quantity per carton	8 PCS
Net weight	19 KGS
Gross weight	21 KGS
