

Overview

The Dell Latitude 11 Keyboard has comfortably-sized and well-spaced keys that make typing easy and natural—just like typing on a laptop computer. Plus, a high-precision, gesture touch pad gives you control similar to that of a mouse so you can work quickly and accurately with this Windows 8.1/10 compliant keyboard. Use the included Dell Mini Active Pen to interact with your tablet screen, and dock it on the side of the keyboard for safe storage and quick charging. Backlit keys, give you the flexibility to take your work on-the-go in all types of lighting situations. This sleek and sturdy keyboard can be adjusted so you can enjoy multiple viewing angles up to 120 degrees. The Keyboard also features a built-in rechargeable battery, so you can be more productive while out and about.

Dell Latitude 11 Keyboard is a Windows 8.1/10 compliant keyboard that provides classic laptop-style typing for your tablet.

The Dell Latitude 11 Keyboard has comfortably-sized and well-spaced keys that make typing easy and natural—just like typing on a laptop computer. Plus, a high-precision, gesture touch pad gives you control similar to that of a mouse so you can work quickly and accurately wherever your busy day takes you. The backlit keys allow you to type effortlessly night or day. The keyboard also features a built-in rechargeable battery, so you don't have to worry about running out of battery while you're out and about.

Dock your Dell Mini Active Pen on the side of the keyboard for safe storage.

With the Dell Latitude 11 Keyboard it's easy to transform your tablet into a notebook experience. Simply snap your tablet into the sleek, yet sturdy, keyboard—now you're set up for a notebook experience.

Use the included Mini Active Pen to interact with your tablet, and take quick notes while you are in a meeting. When you're done, dock it on the side of the keyboard for safe storage and quick charging. Enjoy continuous usage of your pen for a full 39 minutes. Use the lower button on your pen to erase and the upper button to right click. Plus, check out the many customizable options available.

The built-in rechargeable battery extends the battery life of your tablet so you can be more productive.

Keep working in comfort without worrying about running out of battery. With a built-in rechargeable battery, you can enjoy extended battery life for your tablet. The Keyboard also features a built-in hinge that lets you tilt your tablet up to 120 degrees. Play around with different angles to find what's most comfortable for you.
