

Valberg FRS 75 KL Fire Resistant Two Key Locks Safe:

The Valberg FRS-67 T EL safe is designed to store money and valuable documentation in the office and at home and is recommended to be used indoors to prevent documents from being destroyed by fire. The case and door of the fireproof safe consist of two walls welded among themselves, the space between which is filled with the patented composition of fireproof concrete. In the design of the Valberg fireproof safe, a heat lock is used, which provides fire resistance in the area of the safe door and prevents the passage of heat flow. There are wheels on the bottom of the safe for the convenience of moving the safe from place to place.
